MEMORANDUM FOR: Director of Planning, Programming
and Budgeting

SUBJECT: Community Issues Surfaced at CIA
Budget Review

1. Herewith a list of CIA resource issues that have community ramifications. I'm sure there are others.

2. How can the IC Staff or perhaps the IRAC Working Group be helpful? I suspect not on such issues as #1, 4, and 6 where its a question of two specific elements of the community getting together to explore possibilities. Items #2, 3, and 5 on the other hand are more diffuse and potentially involve several different and not yet clearly identified components. Would it be useful for IC to broker these issues? Let's discuss.
